

# Attached Lid Container

## Ship & Store – More Secure!

The new all-plastic Attached Lid Container from Akro-Mils features a zipper lock hinge, which makes it an ideal choice for greater security in shipping, storage, or picking applications. Perfect for use in retail/wholesale distribution, grocery, and general manufacturing, this 100% recyclable tote comes in 4 color options for easier identification of contents. Designed for long-lasting, cost-saving performance, these containers feature:

- Unique, all-plastic zipper lock hinge design for optimum security
- Patented interlocking fingers on lid for tight closure
- Reinforced design for added strength and secure stacking of loads in any application
- Identification areas for labels and tags
- Smooth interior for easy cleaning
- Textured bottom to prevent slippage on belt conveyors
- Nests when empty for optimal space use
- Molded-in handle grips for easy lifting

**Perfect For:**

- Grocery
  - General Merchandise
  - General Manufacturing
  - Medical
- and more!**

**All-Plastic Construction**

Non-steel hinge makes product lighter and 100% recyclable

**Locking Hinge**

Extra secure HDPE hinges “lock” when lid closes, protecting against inventory loss and theft

**Tie Holes**

Located in both ends, tie holes are compatible with a variety of closures to further secure lids

**Reinforced Sides & Corners**

Added protection against breakage from heavy loads or rough handling

**Akro-ALC**
